SUMMARY

Full Stack experienced in Typescript, React.js, Next.js, Node.js and PostgreSQL. Built internal enterprise tools at MIT-WPU and contributed to production client projects. Strong interest in backend engineering and scalable systems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++

Frontend: React.js, Next.js, HTML, CSS, Typescript, TailwindCSS

Backend: Node.js, REST APIs, Django

Databases: PostgreSQL, MySQL

Tools: Git, GitHub Actions, Vercel, Supabase, Figma, VS Code

Core Concepts: Full Stack Development, API Design, Authentication Systems, Database Design, Agile Development

EXPERIENCE

Developer Intern

Aug 2025 – Present

MIT World Peace University

Pune, India

- Developed CampusBook, an internal full stack platform for faculty resource booking and workflow management
- Built role-based access systems and automated approval workflows improving operational efficiency
- Integrated frontend dashboards with backend APIs and approval workflows.
- Developed Next.js frontend dashboards improving visibility of resource allocation processes,
- Designed REST APIs and backend services using Node.js and PostgreSQL
- Collaborated with administrative stakeholders to deploy production-ready features

Web Developer Intern

Jul 2022 – January 2023

Infeanet Digital Solutions

Pune, India

- Developed backend modules using Django and MySQL for client applications
- Improved API response performance through query optimization
- Built reusable backend components reducing development effort
- Worked in agile sprint environments delivering tested production features

PROJECTS

SafeCheck – AI Fraud Detection System | *Python, Scikit-learn, NLP* | [GitHub](#)

2024

- Built multi modal fraud detection system combining phishing detection and audio deepfake detection
- Developed ML models including Logistic Regression and Random Forest for classification tasks
- Designed risk fusion scoring algorithm combining multiple model outputs
- Built modular architecture enabling extensibility for additional fraud detection signals

CampusBook – Resource Management Platform | *Next.js, React, Node.js, PostgreSQL* | [Production](#)

2026

- Built centralized faculty resource allocation system with booking workflows
- Implemented approval pipelines and role-based dashboards
- Designed and developed backend APIs supporting scheduling and allocation processes
- Improved resource allocation visibility for 2000+ faculty through centralized tracking

RISE Enterprises – Commercial Website | *Next.js, TailwindCSS* | [Production](#)

2025

- Developed responsive business website for construction firm
- Implemented SEO optimized pages and project showcase modules
- Built lead capture workflows through contact form integrations
- Deployed production website using Vercel hosting

EDUCATION

MIT World Peace University

Pune, India

Bachelor of Technology in Computer Science

2023 – 2026

Sou Venutai Chavan Polytechnic

Pune, India

Diploma in Computer Science (82.5%)

2020 – 2023
